# HORSE VS WI-FI

**WI-FI in rural Germany is so slow, it's quicker to send files via horse!**

Klaus-Peter Kappest, a photographer from Oberkirchen in Germany, was sick of his slow internet. Getting just 1.5 megabits per second, around ten times lower than the lowest speeds in Berlin, Klaus-Peter suggested it might be faster to send files via horse to his editor.

While it was initially a joke, Klaus-Peter and his editor decided to put it to the test. They hired local horserider Jakob Schütte and his horse, Favo, to take a DVD containing 800 photos on a 10km ride to his printer's office in Schmalleberg.

Klaus-Peter began uploading the images 20 minutes before Jakob and the horse set out. The horse took 104 minutes to deliver the DVD, while the upload took more than five hours!

The stunt worked, and Klaus-Peter's broadband provider has said it will provide fibre-optic broadband in the village, after being embarrassed by the story.

### ● Women at the wheel

The Moscow Metro has hired its first female train drivers since the 1980s. Until September last year, the job was on a list of professions described as "harmful to women's health" by the government. The ban has been widely criticised, and while the number of banned jobs has fallen significantly, there are still some that only men are allowed to do.

## 120-YEAR-OLD CHOCOLATE!

The chocolates were made by Cadbury's

**A 120-YEAR-OLD box of chocolates has been found by staff at the National Library of Australia.**

The chocolate belonged to a poet and journalist called AB 'Banjo' Paterson, and was found among his papers.

The tin chocolate box was one sent to soldiers in South Africa during the Boer War around 1900. It was a gift to the troops ordered by the UK's Queen Victoria.

Jennifer Todd, from the library, said: "There was quite an interesting smell when they were unwrapped." We bet there was! What do you think 120-year-old chocolate tastes like?

**TEACHER ANSWERS**

**AIM OF THE NEWS COMPREHENSIONS:** News reports are unique non-fiction texts. Being real, they naturally engage students, and with the range of topics that are covered, help to develop pupils’ knowledge and understanding of the wider world outside the classroom. The reports are ideal for short, focused comprehension or discussion activities. Along with the opportunity to find fascinating facts and appreciate the opinions of those involved, there is plenty to be inferred and deduced to understand in more depth what is being reported. Like authors, journalists play with language, so news ‘stories’ are rich nuggets of text to investigate and provide the opportunity for literacy programmes.

**TEACHER ANSWER GUIDE:** The teacher answers are intended to provide a quick reference guide. Suggestions are given for the ‘Expected response’ or starting point that pupils could give. The ‘Development’ then gives more in-depth ideas that students can work towards as they develop their reading comprehension skills.
